### DESIGN CRITERIA
- The design criteria for the structural elements are consistent with the specifications and shall be in accordance with the relevant codes and standards.
- The design criteria for the structural elements are consistent with the specifications and shall be in accordance with the relevant codes and standards.

### CONCRETE NOTES
- All concrete is to be placed in accordance with the specifications and shall be in accordance with the relevant codes and standards.
- All concrete is to be placed in accordance with the specifications and shall be in accordance with the relevant codes and standards.

### CONCRETE NOTES (CONT)
- Table A: Reinforcement Tension Laps and Embedment

### FOUNDATION AND EARTHWORK
- All foundations are to be designed and constructed in accordance with the specifications and shall be in accordance with the relevant codes and standards.
- All foundations are to be designed and constructed in accordance with the specifications and shall be in accordance with the relevant codes and standards.

### STRUCTURAL STEEL NOTES
- All structural steel shall be fabricated and installed in accordance with the specifications and shall be in accordance with the relevant codes and standards.
- All structural steel shall be fabricated and installed in accordance with the specifications and shall be in accordance with the relevant codes and standards.

### STRUCTURAL STEEL CONNECTIONS
- All structural steel connections shall be designed and fabricated in accordance with the specifications and shall be in accordance with the relevant codes and standards.
- All structural steel connections shall be designed and fabricated in accordance with the specifications and shall be in accordance with the relevant codes and standards.

### PRE-ENGINEERED METAL BUILDING CRITERIA
- All pre-engineered metal building criteria shall be in accordance with the specifications and shall be in accordance with the relevant codes and standards.
- All pre-engineered metal building criteria shall be in accordance with the specifications and shall be in accordance with the relevant codes and standards.
SECTION

1. RETROFIT FOOTINGS (FTG5, 7, & 8)
   SCALE: 3/4" = 1'-0"
   LIST REQUIRED

2. RETROFIT FOOTING (FTG6)
   SCALE: 3/4" = 1'-0"
   LIST REQUIRED

3. RETROFIT FOOTING (FTG9)
   SCALE: 3/4" = 1'-0"
   LIST REQUIRED

4. BASE PLATE NO. 1 (BP1)
   SCALE: 1/2" = 1'-0"

- RETROFIT FOOTINGS: Footings FTG5, FTG7, and FTG8 are retrofit footings.
- BASE PLATE NO. 1: Base plate BP1 is shown with connections.

REVIEWS

- RM III: Issued for review.
- RP: Issued for bidding.
- ADDENDUM 1: Additional information or changes.
